

ZERO COST CHALLENGE

**FIXED MAINTENANCE BUDGET
ZERO SURPRISE COST
ZERO SURPRISE DOWNTIME
CONDITION BASED OVERHAUL
ADVANCED DOWNTIME PLANNING
USER DEFINED RISK TOLERANCES**

ZERO SURPRISE HASSLE

With the help of condition-based maintenance, support by mature machine health diagnose algorithm, you no longer required to overhaul your all equipment following regular schedule and high-rise cost impact to company operation.

To help plant maintenance to assure minimal down time due to unforeseen failure of equipment, we utilise latest technology to predict potential faults and prevent it by intervention at most accurate timing.

To further enhance quality of maintenance, and assurance of cost down without compromising to quality of operation, we offer insurance package on top of this condition-based maintenance program. No more surprise cost impact to the plant, yet reducing down time of equipment, and reduce time required to shut down equipment for overhauling need.

Contact us today and find out how!
